

Top mounted brushless DC Motor making it the quietest platform lift on the market.

New roller guide system reduces friction for a smooth and reliable ride. It also eliminates the need to grease rails.

Premium textured powder coat, offering extreme durability with a rich, appealing look.

Top hanging drive rod removes the chance of flexing and ensures no noise or vibration.

Larger platform (36" x 54" OD) with increased sidewall height (42") accommodates diverse needs.

Longer access ramp (20") creates a gentle slope for entering and exiting the platform.

## Standard Features

- ▲ No need for a dedicated line
- ▲ Easily converts to 90° platform
- ▲ Under platform safety sensors
- ▲ Designed for extreme cold climates
- ▲ 1" Acme screw drive with steel back-up nut
- ▲ Smooth non-friction urethane roller system
- ▲ Open bottom tower
- ▲ 750lb lifting capacity
- ▲ Weather proof controls

# BATTERY POWERED DECK LIFT

## Your Best Choice For Independence

Cambridge Elevating Battery Powered Deck Lifts provide accessibility under any condition, including a power outage.

Compact and reliable, the units are engineered to endure the harshest weather conditions with protected controls and powder coated panels to resist corrosion.

Now you can enjoy an active, mobile lifestyle regardless of your limitations.

- ▲ Shipped fully assembled for quick installation
- ▲ Includes two 12 volt batteries and trickle charger
- ▲ Easily reversible tower
- ▲ Key controlled access
- ▲ Constant pressure push buttons
- ▲ Emergency stop button on platform
- ▲ Final limit switch
- ▲ Non-skid platform
- ▲ 3/4 HP high torque brushless DC motor
- ▲ 24 months parts warranty
